FROM THE EVENT MANAGER

Welcome to the 23rd edition of the world's largest Ford Family Reunion, the Carlisle Ford Nationals. This year's show is jam-packed with returning features such as the huge vendor area, historic displays and, this year only, monster truck rides! Of course, this doesn't even begin to cover it! Be sure to read the event highlights, schedule and map in this guide so you don't miss anything.

One of our highlights is the 50th Anniversary of the Mercury Cougar. With help from some great enthusiasts and clubs, there is an incredible display in Building T with cars from all over the country. Stop by to see Cougar One, all the way from Washington state!

Another highlight is the 50th Anniversary of the Shelby GT500, also featured in Building T. Join engineer Chuck Cantwell in the Seminar Tent as he takes you through the GT500's exciting development at Shelby American in the late 1960's.

Celebrating their 60th Anniversary are the E and F Code cars. They are in Building T and also in a tent beside Building T. You can see the historic Ford Battlebird and the Mercury Mermaid and meet some of the people that made these cars happen. Join the likes of Dean McCann as he takes you through F-Code cars, the factory superchargers that made them famous and the Ford Battlebird program.

Two very big milestones are being recognized this year! Those are the 100th Anniversaries of Lincoln Motor Company and Ford Trucks. Visit the Lincoln tent just north of the car wash area (near the Lincoln showfield classes in the North Field) to see the Batmobile which was based on a Lincoln Futura concept car. Next to the Lincoln tent is the Ford Truck tent which showcases trucks from the Model AA to today's Raptors and modern models including fire trucks and tow trucks. To top it off, we've brought the Virginia Giant Monster Truck! Go to the top of the hill and take a ride sometime during the event, fee applies.

Definitely visit the Ford Nationals Select Display in Building Y for a great mix of history and some really fast race cars! Ford Motor Company is here supporting the event with displays, walk-arounds, test drives, installations and more. Visit our vendors in the swap meet and Midway for great products and deals and most of all, have a terrific experience!

INVITATIONAL DISPLAYS: FEATURED VEHICLES

The Batmobile, as seen in the 1966-1968 TV series that starred Adam West and Burt Ward, is on display in the Lincoln 100th Anniversary Tent.

The car started out as a one-off, 1955 Lincoln Futura concept car and came from the factory with a 368 cubic inch V8 and a three-speed Turbo Drive automatic transmission. It was shown throughout the car show circuit that year and, although it was garnered favorably publicly, it never went into production. It was used in the movie "It Started With a Kiss," starring Debbie Reynolds and Glenn Ford, then sat on a Hollywood lot until it was acquired by George Barris for \$1. When Barris was

**1955 LINCOLN FUTURA BATMOBILE OWNED BY JETT YASKOW
— LINCOLN 100TH ANNIVERSARY TENT —**

approached to build a Batmobile, and only given three weeks to do so, he thought the Futura's unique characteristics would work well.

Being that it was a one-off vehicle, Barris had to make a mold of it, then he built three out of fiberglass

for the series. Since the show ended, replicas have been made from those molds such as this one.

For a nominal fee, you may sit in the Batmobile and take photos with it. Take your turn behind the seat as the legendary Batman!

The first Mercury Cougar ever produced is in **Building T!** But it didn't get there easily.

During a dedication ceremony for one of Ford's shipping facility's in New Brunswick, Canada in 1966 the owner of Dryden Motors asked Lee Iacocca about getting his Cougar orders quicker because he was low on the fulfillment list. Iacocca agreed to send a factory car to put in his showroom and it turned out to be Cougar One. The car was leased to the owner of the car wash across the street for 35 months, then it was parked at the dealership until 1979. After the dealership was closed and auctioned, Cougar One ended up in the hands of a local hardware dealer who tried to sell it in a 1982 Cars & Parts

1967 MERCURY COUGAR SERIAL NO. 1 OWNED BY JIM PINKERTON

Magazine with no luck. Fast forward to 1994 when Mark Ogden picked up that issue of Cars & Parts at a swap meet, saw the ad and began to track down Cougar One. He told his friend, Jim Pinkerton (current owner), about it who tracked it to a quonset hut in New Brunswick, Canada. After identifying the it was, indeed, Cougar One, he reported back to Mark. Mark

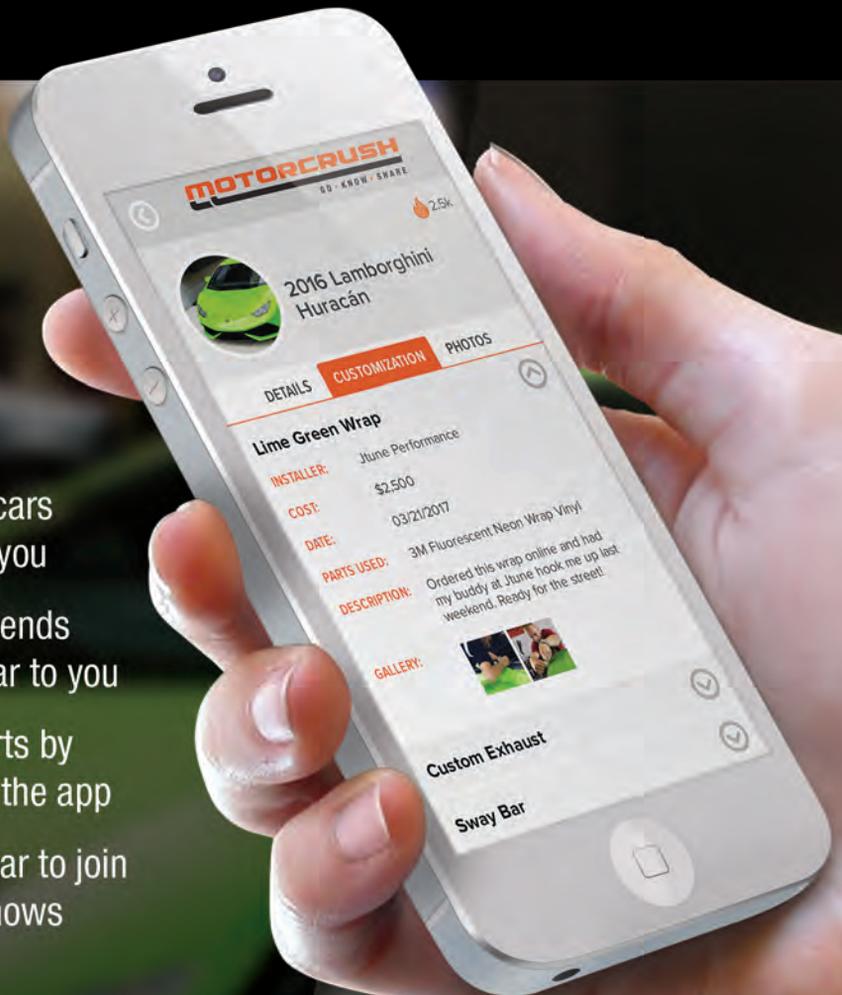

bought the car, and after owning it for about nine months and determining it would take a small fortune to restore it, sold it to Jim. Jim contacted Bob Lutz at Lincoln Mercury and made an agreement with them to lease the car for \$1 for the 30th Anniv. of the Cougar if they would pay to have it restored. It was acid-dipped and the car is beautifully restored today.

INVITATIONAL DISPLAY: 50TH ANNIVERSARY OF THE SHELBY GT500 BUILDING T

1967 wasn't just the year that saw the first Rolling Stone Magazine published, it was also the year that Ford, or more specifically Carrol Shelby, rolled out the powerful Shelby GT500. The GT500 was amazing, fresh and packed with power unknown to a streetable vehicle of the time. The 1967 Shelby GT500 was the first model and it was based on the Ford Mustang Fastback. The GT500 came equipped with a 428cu (7.0L) V8 and in year one only 2,048 of them were produced. The 1967 version of the GT500 may be most famous because of its appearance in the 2000 movie "Gone in 60 Seconds."

SINCE 1970

INVITATIONAL DISPLAY: E & F CODE REUNION TENT

Since 1950, Ford has been coding engines with a single letter as part of the vehicle's VIN which often changed from year to year. After a few years, code letters were easily memorized by true enthusiasts because these letters were the key to the car's DNA. Each code meant something different and some of the most popular of all were the E and F codes of 1957.

Retaining that excitement, he worked at Country Music Television and traveled the NASCAR circuit doing their mobile marketing activations. He then moved on to SPEED TV (now FoxSports 1) where he worked for 10 seasons covering NASCAR. Beginning in 2015, Wood became a specialty reporter and NASCAR analyst. More recently, he has also covered the 2016 Summer Olympics in Rio, the Kentucky Derby, and hosted a variety of car-related TV shows.

This summer Wood hits the road with eBay Motors, traveling the country to overhaul a 1967 Ford Mustang Fastback. Go check out the build on the Manufacturers Midway for an opportunity to meet Rutledge, win fun prizes, and engage with eBay in a whole new way!

Meguiar's, at its core, is about passion. Passion for creating the best possible product to perfect a car's finish and passion for building a community of car enthusiasts, and genuinely connecting with them.

Furniture polish salesman Frank Meguiar Jr. began making his own polish to perfect the lacquer finishes of fine furniture in the family garage in 1901. The same lacquer finishes were to be found on the new transportation vehicles being introduced at the time, which we now know as the automobile. With an eggbeater and a drive to create the very best possible product, he and the family worked days and nights together producing one bottle at a time. This was the beginning of the Mirror Bright Polish Company, and what was to later become Meguiar's.

His three sons Maurice, Malcolm, and Kenneth, drove the business forward with the same hard work, desire for excellence, and vision as their dad. As car culture grew and evolved Meguiar's was in the midst of it as a professional brand for car makers, dealers, body shops, and professional detailers. Each with their own talents focused on their individual roles within the company; Maurice was the sales manager, Malcolm formulated and created products, and Kenneth was in charge of production.

Malcom's son Barry Meguiar began working part-time in accounting during high school, and eventually working in sales and relations with GM, Ford, and Chrysler upon graduation from college. Barry saw the need in the consumer marketplace and helped lead Meguiar's to a new audience specifically reaching out to car enthusiasts with the launch of Liquid Cleaner Wax in 1973. With little to no sales funding he went to retailers and car shows advocating Meguiar's and educating customers one at a time, much like his granddad had done decades prior. Barry then forged ahead again with a series called Car Crazy which first aired on radio and then moved to television. Car Crazy has always been a way to unite people, grow community and car culture, and share stories of why people in the industry are so passionate about what they do.

Meguiar's continues upon this foundation, to work hard to craft the very best possible product while educating and connecting with others in the car community, ultimately growing car culture. Following the lead of those who came before us while having a healthy respect for our tradition and heritage, we reflect upon the past, embrace it, and look forward with excitement to the open road ahead.

This is who we are, where we come from, and what fuels our passion at Meguiar's.

TRADITION. RECRAFTED.

THE MIRROR BRIGHT POLISH COMPANY WAS FOUNDED IN 1901 BY FRANK MEGUIAR JR. TO PERFECT THE FINISHES ON FINE FURNITURE & THE NEWLY INTRODUCED AUTOMOBILE. THE PASSION CONTINUES TODAY WITH A SPECIAL LINE OF PRODUCTS THAT PROTECT & ACCENTUATE AUTOMOBILE FINISHES, DERIVED FROM OVER 110 YEARS OF EXPERIENCE, RESEARCH AND DEVELOPMENT.

(LEFT) PORUBSKI FAMILY; (ABOVE) 1967 SHELBY GT500 BARN FIND

BY ANTHONY VERNET

A true Ford Nationals veteran is probably very familiar with George Porubski, his brother Randy, his son George Jr., his niece Kate, and longtime employee John Herbert (who's family by association). Together, they run Perogie Enterprises and have been supplying a hearty range of Ford performance parts for over 30 years, specializing in NOS parts (primarily '60s & '70s Ford) and vintage Ford literature. Now, their in-house and online business operates in a 10,000 ft. warehouse in Hightstown, NJ, about 150 miles from the Carlisle Fairgrounds.

The name 'Perogie' came from an old friend who would jokingly pronounce Porubski's name as the eastern European food pierogi (Porubski is of Czechoslovakian heritage). The name and distinct spelling resonated with those close to George, and so it stuck. Three decades later, the name Perogie has become synonymous with quality, hard-to-find Ford parts.

Porubski's first time on the Carlisle Fairgrounds was for Fall Carlisle 1981, after a fellow vendor from New Jersey recommended he visit for the swap meet and car corral. He made a last minute trip that Saturday to central Pennsylvania and came back with more money and more parts than he bargained for. It was then he knew to plan better for the next year; the Carlisle swap meets showed

major lucrative promise.

Today, Perogie Enterprises is routinely stationed in spots A 92-100 at Ford Nationals each year, selling anything under the sun relating to Ford and its subsidiary brands. George notes that he has sold no less than a dozen cars since attending the Spring, Ford and Fall shows at Carlisle over the years. Here's the catch: not once has he placed a vehicle in the car corral—his rides always come with him to the swap meet. Vending at Carlisle has led to not only countless friendships, but also an abundance of networking opportunities for their online eBay store, which George Jr. and Randy have been running since the late 90s. George Sr. credits his son for bringing Perogie Enterprises into the digital realm, which now accounts for 60% of their business.

This year, Porubski is dusting off his 'Jersey Devil' for the Ford Nationals: an original 1967 Shelby GT500 4-speed that hasn't been driven in a whopping 15 years. Recently spotlighted in Muscle Car Review as a Barn Find, this relic was salvaged by George from a devastating garage fire in 1988. It would be blasphemous to not summon this devil out of hibernation for the 50th Anniversary of the Shelby GT500; she'll be waiting for you to visit her in Building T. Let the resurrection begin!

(LEFT) THE STEVENS FAMILY:
MATT, HEATHER, DAN, BARB,
PHIL & MOLLY

(ABOVE & RIGHT) DAN & BARB STEVENS'
1969 MERCURY COUGAR

BY ANTHONY VERNET

Dan and Barbara Stevens' 1969 Mercury Cougar is one invincible vehicle. Metaphorically speaking, this cat has lived through nine lives and then some. From cruising on the beaches of South Padre Island, trudging through the flooded downtown of Corpus Christi, riding through the Midwest at 2 a.m. on country roads with Penny, the barking beagle, and transporting Dan's father's gargantuan farm tractor tires in the backseat down Coastal Highway in Ocean City, MD, the Cougar has run up some substantial mileage (97,131 to be exact). In addition, the four replacement convertible tops that were installed over the years after being punctured by hail, staples, and a shortsighted burglar in Austin, TX help assert the car's resilient nature.

Dan and Barbara acquired the Cougar through trading in a '66 Mustang convertible. It was custom-ordered the first year it was offered as a convertible, included more standard features that were added-cost options on Mustang, and had more appealing shape and style. Dan's parents picked the Cougar up at a dealership in North Carolina, drove midway to Pensacola, FL to meet Dan and Barb in Georgia where they swapped vehicles, and drove back north to return the Mustang.

Nowadays, the Cougar lives at the Stevens' residence in La Plata, MD, about three hours south of Carlisle. They've been attending events here since the mid-90s and began showing cars on the fairgrounds in 2006, starting with their 1981 Ford F-100. This year, the high-caliber Cougar will come out of its shelter after

an extensive 17 year restoration, with many of the parts coming from the swap meets at Carlisle.

The catalyst that began the Cougar's restoration was the installation of a new exhaust system from Flowmaster in March 2000. Dan and Barb recall two significant occasions on the prowl for Cougar parts. The first was stealthily getting a hold of two NOS door skins. On the walk back to the car, a guest inquired if they were looking for a '69. They replied yes, and to the man's chagrin, he cursed and stated "I might as well go home." On the second occasion, fate wasn't in their favor. A complete NOS and in-the-boxes '69 Cougar grill was readily available, but Dan advised his son Phil to wait until Sunday assuming the vendor would come down on the price. Little did they know that their golden opportunity had passed – two hours later, the grill was sold. Locating this particular part would take them ten more years and cost twice the money.

This arduous, yet gratifying restoration has given the Stevens a new sense of appreciation for their Cougar. Some of their favorite features on the car are the flip up headlights, sequential turn signals, horn rim on the steering wheel, power top, seat belt holders, analog clock, and most importantly how it drives and handles. Dan and Barb look forward to making even more memories with their beloved PURRT69, a clever nickname for the Cougar that is emblazoned on the license plate. To get up close and personal with this exceptional ride, you can find them situated in the Blue Showfield.
